

# Life Float **Replacement** Options

US Coast Guard Approved IBA and Liferaft Solutions for Vessels Operating in US Coastal Waters

## USCG Change in Regulations

USCG has stipulated that as of **26 February 2016** all commercial vessels sailing in US coastal waters must have an approved survival craft onboard that ensures no part of an individual is immersed in water.

This means that basic life floats and similar systems must be phased out and replaced by approved craft in order for the vessel to meet the new requirement.

## Passenger Vessels

### VIKING IBA

(Inflatable Buoyant Apparatus)

- Fully reversible
- Award winning boarding ramp for easy access (12-25 person sizes)
